

HOW TO USE YOUR CO-OP & SUMMER INTERNSHIP CREDIT

The following information is supplied by the specific department. It does change occasionally, so please verify with your department before registering for credit.

BME: 1 credit of BME 001 taken in a Fall or Spring term may be counted as credit towards BME 200, 300 or 301. Additionally, 1 credit of BME 001 earned during a Summer term can count towards a technical elective.

CHE: May apply up to 2 co-op/internship credits towards CHE electives. No special requirements. Students may select to take Professor Root's Special Topics course for 1 credit to round out a 3 credit group (contact CBE). Srs preferred.

CEE: Up to 3 co-op/intern credits can be applied to engineering electives.

CMPE: One co-op/intern credit may be counted towards Professional Electives. NOTE: *If admitted to CMPE prior to Fall 2013 it will count towards the advanced electives.*

EE: One co-op credit may be applied to the advanced course electives.

EM: Up to 3 co-op/intern credits may be applied toward technical electives.

GLE: Students can apply to have co-op/intern credits with a design or engineering science component count as technical elective credits. Interested students should contact the GLE Chair.

IE: Co-op/intern credits may be used as ISyE Technical Electives, subcategory 4) Undesignated. There is a limit of *3 undesignated credits* *that can be applied toward the degree. **UW admit term of Spring 2016 or earlier*

MS&E: May apply up to 3 co-op credits toward MS&E electives.

ME: May apply up to 3 co-op credits toward technical elective.

NE & EP: Co-op credit does not fulfill any major requirements but does count toward total degree credits.
